# TOP BLOCKCHAIN DEVELOPMENT COURSES ONLINE: HANDS-ON LEARNING FOR BUILDING DECENTRALIZED APPS

1. ETHEREUM AND SOLIDITY: THE WHOLE DEVELOPER'S GUIDE AVAILABLE ON UDEMY

- Learn how to build decentralized applications (dApps) using Ethereum and Solidity.
- Offers hands-on projects to solidify your understanding.

2. COURSERA: BLOCKCHAIN SPECIALIZATION BY UNIVERSITY AT BUFFALO

- Comprehensive introduction to blockchain technology.
- Focus on real-world applications and developing your first dApp.

3. EDX: BLOCKCHAIN FOR DEVELOPERS BY BERKELEY

- Dive deep into blockchain concepts and smart contracts.
- Practical exercises to build decentralized applications.

4. LEARN BLOCKCHAIN DEVELOPMENT USING EOS AND C++ WITH LINKEDIN LEARNING

- Introduction to blockchain development using EOS.
- Hands-on exercises to create decentralized applications.
